**1. Nature of Operations**

The Company was incorporated on August 12, 1998 under the laws of the Province of Ontario.

The Company has interests in mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of expenditures on mineral properties, including deferred exploration expenditures, is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and the development of the mineral properties, and upon future production or proceeds from the disposition thereof.

**2. Summary of Significant Accounting Policies**

These financial statements have been prepared in accordance with accounting principles generally accepted in Canada. The significant policies are as follows:

a) Going concern assumption

These financial statements have been prepared on the going concern assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to the adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts different from those in the accompanying financial statements. The Company's ability to continue as a going concern is dependent upon its ability to attain profitable operations, to arrange financing to meet its current and future obligations and the outcome of the matters discussed in notes 10 and 15.

b) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates are reviewed periodically and, as adjustments become necessary, they are made in the period in which they become known. Actual results could differ from those estimates.

c) Property, plant and equipment

Property, plant and equipment are recorded at cost. Amortization is provided on the diminishing balance method at the following rates:

Computer Equipment	30%
Computer Software	100%
Furniture and equipment	20%

Amortization is provided at one half annual rates in the year of acquisition.

d) Interest in mineral properties

Effective January 1, 2003 the Company adopted the recommendation issued by the Canadian Institute of Chartered Accountants regarding the expensing of exploration expenditures as incurred. Costs attributable to property acquisitions are capitalized while exploration expenditures on the property can only be capitalized once mineral reserves have been established. Once a mineral reserve has been established, all development costs will be capitalized. These costs together with the costs of mining interests will be charged to operations on a unit-of-production method based on estimated recoverable reserves. If the mining interests are abandoned, or when an impairment in value has been determined, the capitalized costs will be charged to operations.

The Company will continue to carry deferred exploration expenditures incurred prior to January 1, 2003 as an asset; however, when events or changes in circumstances indicate that the carrying amount may not be recoverable, the Company will evaluate the carrying value of the asset and an impairment will be recognized at that time.

e) Translation of foreign currency

Foreign currency denominated monetary assets and liabilities of Canadian operations are translated into Canadian dollars at exchange rates prevailing at the balance sheet date and at exchange rates prevailing at the transaction date for non-monetary items. Revenues and expenses are converted at the average exchange rate for the year. Exchange gains or losses arising from the transaction are included in operations.

**2. Summary of Significant Accounting Policies (continued)**

f) Income taxes

The Company accounts for income taxes using the asset and liability method. Under this method, future income taxes assets and liabilities are determined based on differences between the financial statement carrying value of existing assets and liabilities and their respective income tax bases (temporary differences), and losses carried forward. Future income tax assets and liabilities are measured using tax rates expected to be in effect when the temporary differences are likely to reverse. The effect on future income tax assets and liabilities of a change in tax rates is included in operations in the period in which the change is substantively enacted. The amount of future income tax assets recognized is limited to the amount that is more likely than not to be realized.

g) Accounting for stock-based compensation

Effective January 1, 2003, the Company adopted, on a prospective basis, the accounting recommendations of the Canadian Institute of Chartered Accountants ("CICA") Handbook Section 3870, "Stock-Based Compensation and other Stock-Based Payments". This section requires the use of the fair-value method to calculate all stock-based compensation associated with granting stock options to employees and directors, and the inclusion of that expense in the statement of operations. Under the new accounting policy, the Company measures stock-based compensation on the date of the grant and recognizes this cost over the vesting period of the options in results of operations.

h) Impairment of long-lived assets

Effective January 1, 2004, the Company adopted the CICA Handbook Section 3063, "Impairment of Long-Lived Assets". This section requires the Company to assess the impairment of long-lived assets, which consist primarily of mineral property, plant and equipment, whenever events or changes in circumstances indicated that the carrying value of an asset may not be recoverable. Recoverability of assets to be held and used are measured by a comparison of the carrying value of the asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the amount of the impairment is measured by the amount by which the carrying amount of the asset exceeds its fair value.

For the Company, the adoption of CICA Handbook Section 3063 had no impact on results of operations previously presented.

i) Asset retirement obligations

Effective January 1, 2004, the Company adopted the CICA Handbook Section 3110, "Asset Retirement Obligations". This section requires that the fair value of a liability or an asset retirement obligation be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The estimate excludes the residual value of the related assets. The associated retirement costs are capitalized as part of the carrying amount of the long-lived assets and amortized over the life of the asset. The amount of liability is subject to re-measurement at each reporting period. This differs from prior practice which involved accruing for the estimated retirement obligation through annual charges to earnings over the estimated life of the property.

For the Company, the adoption of CICA Handbook Section 3110 had no impact on the results of operation previously presented.

At the present time, the Company has concluded that there are no asset retirement obligations associated with any of the properties.

**3. Cash**

Included in cash as at June 30, 2006 is \$346,641 of monies received from the issue of flow-through shares (\$404,280 – December 31, 2005). The use of these funds is restricted to exploration expenditures. For the six months ended June 30, 2006, \$400,404 of the exploration expenditures were legal costs related to securing access to the property. The company is currently awaiting an opinion on the tax treatment of these expenditures.

**4. Funds Held In Trust**

Funds held in trust represent monies advanced to lawyers.

Mineral property descriptions: Big Trout Lake, Ontario

During 1999, the Company acquired a 100% interest in certain mining claims located in the Patricia Mining Division of northwestern Ontario. By an agreement dated February 24, 1999, the Company acquired these claims from an officer/director in exchange for shares (note 9). The Company has received approval of assessment work filed and these claims are in good standing until dates from July 2006 to February 2007.

On February 10, 2006 the Company closed an agreement to acquire a 100% unencumbered interest in 81 mining leases from a joint venture operated by Inco Limited for \$150,000 cash and the issuance of \$150,000 worth of the Company's common shares (428,751 common shares issued).

Under subsection 129(4) of the Mining Act RSO 1990 c.M.14, as amended, the Mining and Lands Commissioner has ordered that effective April 18<sup>th</sup> 2006 Platinex's mining claims are to remain in good standing until the legal proceedings are resolved (see notes 10 and 15).

**6. Property, Plant and Equipment**

**7. Capital Stock, Warrants and Stock Options (continued)**

p) Stock options cont'd

On January 25, 2006 the Company announced the granting of an aggregate of 865,000 options to various directors, officers, employees and consultants of the company pursuant to its stock option plan. Each option is exercisable into one common share in the capital of the Corporation upon payment of an exercise price of \$.38 per share at anytime until January 25, 2011. The new stock option plan was approved at the meeting of shareholders held on May 24, 2006.

q) Share purchase warrants.

The following summarizes the warrants that have been issued, exercised or have expired during the period:

	<u>Number of Warrants</u>	<u>Weighted Average Exercise Price</u>	<u>Expiry Date</u>	<u>Amount</u>
Outstanding January 1, 2005	0			\$ 0
Warrants issued on private placement (k)	436,363	\$ 0.825	Dec 20, 2007	56,727
Warrants issued on private placement (l)	<u>1,160,000</u>	<u>\$ 1.000</u>	<u>Dec 30, 2007</u>	<u>81,200</u>
Outstanding December 31, 2005 and June 30, 2006	<u>1,596,363</u>			<u>\$ 137,927</u>

The share purchase warrants are valued using the Black-Scholes option pricing model with the following assumptions: risk free interest rate of 3.85%; expected volatility of 85%; expected life of 1.5 years and expected dividend yield of 0%. The fair value of \$137,927 has been recognized in the Company accounts.

**8. Income Taxes**

Future income taxes reflect the net tax effects on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts for tax purposes.

There is 1 future income tax liability and there are 2 future income tax assets as follows:

	<u>December 31 2005</u>	<u>December 31 2004</u>
Future income tax liability		
Renounced mineral expenditures on flow-through shares	\$ (486,492)	\$ 0

**8. Income Taxes cont'd**

The Company provided a valuation allowance equal to the future tax assets (except for the amount of the non-capital losses equal to offset the future income tax liability in accordance with CICA Handbook EIC-146) because it is not presently more likely than not that they will be realized. The Company's actual income tax (recovery) expense for each of the years ended is made up as follows:

	Year ended December 31 2005	Year ended December 31 2004
Loss before income taxes	\$ (496,987)	\$ (187,856)
Income tax (recovery) at the combined federal and provincial rates of 36.11%	(179,462)	(67,835)
Non-deductible exploration expenditures	62,223	0
Renounced mineral expenditures on flow through share	(80,213)	67,835
Utilization of non capital losses	(289,040)	0
Actual income tax (recovery) expense	\$ (486,492)	\$ 0

At December 31, 2005, the Company had federal non-capital loss carry forwards of approximately \$1,700,087 for Canadian income tax purposes, to reduce future taxable income. These non-capital loss carry forwards expire as follows:

2006	\$ 84,002
2007	175,754
2008	207,802
2009	620,205
2010	160,501
2011	127,544
2012	324,279

The benefits of these losses have not been recorded in the financial statements. At December 31, 2005, the Company reports a total of approximately \$800,794 of various classes of exploration expenses available for carry forward to apply against taxable income of subsequent taxation years.

**9. Non-Cash Transactions**

During the year ending December 31, 1999, the Company acquired mining claims in exchange for 1,600,000 common shares having a value of \$0.25 per share. During fiscal 2005, the Company issued common shares in exchange for trade debt as described in notes 7f and 7h.

**10. Contingencies and Commitments**

At the commencement of the Big Trout Lake project in 1999, the Kitchenuhmaykoosib Inninuwug First Nations ("KI") community informed the Company that it was opposed to any exploration activities on the Big Trout Lake property. The Ontario Ministry of Natural Resources and the Ontario Ministry of Northern Development and Mines have confirmed that the Company has the right to quiet possession of the property and the right to pursue exploration. Until recent developments, KI had consented to low impact exploration, continued consultations and employment opportunities as the project progressed.

In late February, 2006 due to the conduct of members of the Kitchenuhmaykoosib Inninuwug First Nations ("KI") community, and in order to ensure the safety of its on-site workers, Platinex vacated its camp in the Big Trout Lake area and temporarily halted the exploration program on its claims. After Platinex's forced departure, and without its authorization, KI members tore down the camp and removed all items from the site. The Company's efforts to engage the KI community in discussions to resolve the situation have been unsuccessful. Platinex is in the process of seeking injunctive relief against KI, the KI Band Council and others so that it can continue its exploratory drilling without obstruction or interference. The Company also has issued a Statement of Claim against the same parties for damages. Refer also to note 15.

Since the outcome of the matters involving the Company and KI over the Big Trout Lake property has yet to be determined, the Company has not made any provision in the financial statements for any loss or impairment in the mining assets or any costs related to this action.

**12. Basic and Diluted Loss per Share**

The basic and diluted loss per share is computed by dividing the loss by the weighted average number of common shares outstanding during the period. The conversion of stock options was not included in the calculation of diluted loss per share since the calculation would be anti-dilutive.

**13. Fair Value of Financial Instruments**

At June 30, 2006 and December 31, 2005, the Company estimates that the carrying value of cash, accounts receivable, funds held in trust and accounts payable approximate their fair value due to the immediate or short-term nature.

**14. Comparative Results**

Certain of the comparative results have been reclassified to conform to the current period presentation.

**15. Subsequent Events**

On July 28, 2006, the Ontario Superior Court dismissed the company's motion for an injunction against KI and issued an order enjoining Platinex from engaging in its contemplated exploration program for five months at which time the parties must re-attend before the court. The order in KI's favour is conditional on, among other things, KI immediately establishing a "consultation committee charged with the responsibility of meeting with representatives of Platinex and the Provincial Crown with the objective of developing an agreement to allow Platinex to conduct its two-phase drilling project at Big Trout Lake." Platinex has filed a motion for leave to appeal the Ontario Superior Court's ruling.

On August 9, 2006, the Company granted 60,000 options to a director of the company pursuant to its stock option plan. Each option is exercisable into one common share in the capital of the corporation upon payment of an exercise price of \$0.14 per share at anytime until August 8, 2011.

In August 2006, Platinex Inc. has been served with a statement of claim by Cartwright Drilling Inc. Cartwright is claiming \$310,073.18 in damages plus 2% interest per month. The claim arises out of a drilling contract between Platinex and Cartwright under which Cartwright was to perform drilling on Platinex's Big Trout Lake property. Cartwright's drilling crew was forced to leave the property as a result of actions taken by the local native Band, KI. Cartwright claims it is entitled to damages under the contract. Platinex believes that the amounts claimed by Cartwright are excessive and Platinex intends to file a defense.
