Notes to the Financial Statements
March 31, 2001 and 2000
Unaudited

1. Nature of Operations

The Company was incorporated on August 12, 1998 under the laws of the Province of Ontario.

The Company has interests in mineral properties and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of expenditures on mineral properties, including deferred exploration expenditures, is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and the development of the mineral properties, and upon future production or proceeds from the disposition thereof.

2. Summary of Significant Accounting Policies

These financial statements have been prepared in accordance with accounting principles generally accepted in Canada. The significant policies are as follows:

a) Going concern assumption

These financial statements have been prepared on the going concern assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, they do not give effect to the adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts different from those in the accompanying financial statements. The Company's ability to continue as a going concern is dependent upon its ability to attain profitable operations and to arrange financing to meet its current and future obligations.

b) Use of estimates

In preparing the Company's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

c) Capital assets

Capital assets are recorded at cost. Amortization is provided on the diminishing balance method at the following rates:

Computer Equipment	30%
Computer Software	100%
Furniture and equipment	20%

Amortization is provided at one half annual rates in the year of acquisition.

2. Summary of Significant Accounting Policies (continued)

d) Interest in mineral properties

Mining properties are carried at cost less accumulated amortization, including write-downs. Amortization of mine buildings and mills, equipment and pre-production and development costs commences when a property is put into commercial production, and is calculated on the unit of production method over the expected economic life of the mine.

All direct costs associated with exploration properties are capitalized as incurred. If the property proceeds to development, these costs become part of the pre-production and development costs of the mine. If a property is abandoned or continued exploration is not deemed appropriate in the foreseeable future, the related costs and expenditures are written off.

The amounts capitalized represent costs to be charged to operations in the future and do not necessarily reflect the present or future values of the particular properties.

e) Foreign currency translation

Balance denominated in foreign currencies are translated to Canadian dollars as follows:

- 1) monetary assets and liabilities at year end rates;
- 2) all other assets and liabilities at historical rates; and
- 3) revenue and expense transactions at the average rate of exchange prevailing during the year.

Exchange gains or losses arising on these transactions are reflected in income in the year incurred.

3. Cash – Restricted

The balance represents funds raised in December 1999 for qualifying exploration expenditures to be renounced to investors under the terms of a flow-through share agreement.

4. Funds Held In Trust

Funds held in trust represent monies advanced to lawyers to be disbursed against costs relating to the Company's prospectus. Stock exchange fees in the amount of \$4,280 and a payment to the securities commission in the amount of \$3,000 have been made from these funds and will be included in prepaid expenses (see note 5).

6. Mining Interests (continued)

Mineral property descriptions:

Big Trout Lake, Ontario

During 1999 the Company acquired a 100% interest in certain Mining claims located in the Patricia Mining Division of northwestern Ontario. By an agreement dated February 24, 1999 the Company acquired these claims from an officer/director in exchange for shares (Note 8).

Duluth, Minnesota, USA

During 1999 the Company acquired a 100% interest in three mineral leases covering mining units situated in the County of St. Louis, in the state of Minnesota. These leases are for a term of 50 years commencing on June 16, 1999 with an annual rental of US\$1,500. (rent has been paid to December 31, 2001). If the leases achieve commercial production, a bid royalty of 0.25% and a base royalty of 3.95% increasing on a sliding scale are payable to the State.

During 2000 the Company acquired a 100% interest in twelve mineral leases covering mining units situated in the County of St. Louis, in the state of Minnesota. These leases are for a term of 50 years commencing on December 14, 2000 with annual rental of approximately US\$4,800 (rent has been paid to December 31, 2002). If the leases achieve commercial production, a bid royalty ranging from 0.05% to 0.27% and a base royalty of 3.95% increasing on a sliding scale are payable to the State.

Muskox, Nunavut

In July, 2000 the Company staked 34 claims comprising 86,669 acres (35,089 hectares) near the Coppermine River. These claims were recorded on September 1, 2000.

7. Capital Assets

Capital assets comprise computer equipment and software and furniture and fixtures having an accumulated cost of \$13,749 and accumulated amortization of \$4,570.

8. Capital Stock (continued)

- j) In October 2000, the Company completed the sale by private placement of 923,077 common shares at a price of \$0.65 per share, for net proceeds of \$539,865.
- k) As of December 31, 2000, 2,380,000 of the issued shares are held in escrow.

9. Income Taxes

At March 31, 2001, the Company had federal non-capital loss carry forwards of approximately \$330,588 for Canadian income tax purposes, to reduce future taxable income. These non-capital loss carry forwards expire as follows:

2005	\$6,328
2006	84,659
2007	179,375
2008	60,266

The benefits of these losses have not been recorded in the financial statements.

The Company reports a total of \$863,075 of various classes of exploration expenses available for carry forward to apply against taxable income of subsequent taxation years.

10. Non-Cash Transactions

During the year ending December 31, 1999, the Company acquired mining claims in exchange for 1,600,000 common shares having a value of \$0.25 per share.

11. Contingencies and Commitments

The Company's mining and exploration activities are subject to various governmental laws and regulations. These environmental regulations are continually changing and are generally becoming more restrictive. The Company believes its operations comply, in all material respects, with all applicable laws and regulations. When estimated costs are reasonably determinable, the Company will record a provision for environmental and reclamation obligations based on management's estimates of such costs. Such estimates are, however, subject to change based on negotiations with regulatory authorities, changes in laws and regulations and as new information becomes available.

The Big Trout Lake First Nations Band ("Band") has informed the Company that it is opposed to any exploration activities on the Big Trout Lake Property. The Ontario Ministry of Natural Resources and the Ontario Ministry of Northern Development and Mines has confirmed that the Company has the right to quiet possession of the property and the obligation to pursue exploration. The Company has initiated consultations with the Band, which are continuing, and is hopeful that a mutually acceptable accommodation of each party's interest will be reached. The Band has consented to low impact exploration, continuing consultations and employment opportunities as the project progresses. The Company does not feel that the actions of the Band will have an adverse affect on the Company's financial condition.
